

STAFF REPORT

AGENDA NO: 8e

MEETING DATE: September 16, 2019

To: Honorable Mayor and City Council

Date: September 16, 2019

From: Syed Murtuza, Director of Public Works – (650) 558-7230

Subject: Adoption of a Resolution Awarding a \$620,465 Construction Contract to Stoloski & Gonzalez, Inc. for the Neighborhood Storm Drain Project No. 11, City Project No. 85130, and Authorizing the City Manager to Execute the Construction Contract

RECOMMENDATION

Staff recommends that the City Council adopt the attached resolution awarding a construction contract to Stoloski & Gonzalez, Inc., for the Neighborhood Storm Drain Project No. 11 in the amount of \$620,465, and authorizing the City Manager to execute the construction contract.

BACKGROUND

The Neighborhood Storm Drain Project No. 11 focuses on the next high priority neighborhood improvements identified as part of the Storm Drainage Master Plan to improve drainage and minimize localized flooding. The project consists of construction of approximately 335 linear feet of storm drain pipelines by open trench and pipe lining; replacement of 1,140 linear feet of curb and gutter; installation of 200 linear feet of valley gutter; construction of three storm drain manholes and 10 storm drain inlets; replacement of 19 storm drain grates; and various concrete and street restoration work. The project locations are generally in the Mills Estates and Easton Addition areas and a few locations near Oak Grove Avenue.

DISCUSSION

The project engineering design was successfully completed, and the project was advertised for construction bids on August 15, 2019. Sealed bids were opened on September 5, 2019. The City received three bids ranging from \$620,465 to \$795,500. Stoloski & Gonzalez, Inc. is the lowest responsible bidder with its bid amount of \$620,465, which is approximately 7% below the engineer's estimate of \$670,000. Staff has reviewed their bid proposal and determined the contractor has met all project requirements and has a successful history of performing similar work for other public agencies. As a result, staff recommends that the City Council award the construction contract to Stoloski & Gonzalez, Inc.

FISCAL IMPACT

Estimated Project Expenditures:

The following are the estimated project construction expenditures:

Construction	\$620,465
Construction Contingency	\$93,035
Construction Management	\$62,000
Engineering Administration	\$60,000
<hr/>	
Total	\$835,500

Funding Availability:

There are adequate funds available in the Capital Improvement Program budget funded by the Storm Drainage Fee to complete the project.
