

# STAFF REPORT

AGENDA ITEM NO: 7a.

MEETING DATE: June 10, 2021

**To: Traffic Safety and Parking Commission**

**Date: June 10, 2021**

**From: Andrew Wong, Senior Civil Engineer – (650) 558-7230**

**Subject: Engineering Division Reports/Public Works Update**

---

## **RECOMMENDATION**

Staff recommends that the Commission receive a presentation by staff providing an update on various Public Works – Engineering projects and activities.

## **BACKGROUND**

- **California Drive Bicycle Facility** – Concepts presented at the June TSPC meeting.
- **Broadway Grade Separation Project** – Staff working with design team on value engineering options related to the final design. These options will be presented at a future City Council meeting where they will be introduced and discussed. Any approved value engineering options will be incorporated into the design, and at that time staff can provide a more detailed update.
- **Burlingame Station Pedestrian Improvements** – Design team to present the concepts at the July TSPC meeting seeking feedback on all options.
- **Hoover School Pedestrian Improvements (Summit Drive)** – Staff to kick-off the project with the contractor. Construction will occur this summer.
- **Broadway Pedestrian Street Lighting Improvements** – Project was re-advertised with a May 19, 2021 bid opening and eight bids were received. Staff is preparing the award package to Council. Construction is anticipated for later this year.
- **Old Bayshore Highway Corridor Study** – Design team will be soliciting community feedback on a few design concepts. Outreach results and design concepts to be presented at an upcoming TSPC meeting.
- **Highland Parking Garage Update** – PG&E has completed the installation of the transformer. Parking wayfinding expected to be installed in late June.

- **City of San Mateo's Peninsula Overcrossing** – Staff submitted comments regarding the preparation of the CEQA/NEPA scoping document; with the final document expected in spring 2022. The Final EIR/EA, including the response to comments, is anticipated to be completed in fall 2022 with Caltrans Project approval expected late 2022.
- **Lyon-Hoag Neighborhood Traffic Calming** – From June 1 to June 18, staff will be collecting community feedback on the recently implemented Phase 1 traffic calming measures. An online survey has been set up to give the community a chance to share their thoughts on the temporary trial improvements and ultimately help staff identify long term traffic calming improvements for future years. Questions include a reminder of their concerns, thoughts on the effectiveness of each improvement, and their support on permanent measures.

**DISCUSSION**

Some of these items may have been originally presented to City staff and/or the Traffic Safety and Parking Commission as public requests or comments. Items on this list are matters that would typically be addressed by City staff on an administrative level, or are City Capital Improvement Projects. Matters that require broad public input or have a wide-spread impact are addressed as Commission “Discussion/Action Items” (TSPC Agenda Item 6).
