

OP-2

THE WORLD'S MOST PORTABLE IMMERSIVE TACTICAL TRAINING SYSTEM JUST GOT MORE POWERFUL

OP-2 is an advanced mission rehearsal and training system that combines our leading Tactical Training and Law Enforcement products, with cutting-edge new features developed from your real-life feedback.

➤ SCENARIO CREATOR

The powerful new Scenario Creator Suite enables you to build fully-customized and interactive scenes.

Sketch unlimited building layouts and accurately recreate real-world floor plans.

Access a library of high-quality pre-built scenes, as well as over 100 interactive props including cars, forensics, cover options and more.

➤ AFTER-ACTION REVIEW

Extract deep levels of insight including tactical proficiency, situational awareness, and use of force decision making.

➤ ADVANCED ROLE PLAYERS

Dynamic characters include suspects, bystanders and crowds that react to commands and real-time events. Choose from instructor-controlled characters, or act as real-life suspects using the role player headset, to challenge verbal, de-escalation and critical thinking skills.

➤ ADDITIONAL FEATURES

- Highly portable system weighing under 40 lbs in a single 56" case
- Supports single and multiple users
- Integrates with users' own equipment including: rifle, pistol, CEW and spray
- User-friendly Instructor tablet
- Highly-accurate VR positioning with no external tracking system
- Offline operation and no external internet ensuring privacy and security
- No backpack computers, base stations, IT staff or specialized skills required.
