Designation of Subcontractors

In accordance with Public Contract Code Sections 4100 and following, a bidder on the above-entitled project agrees to designate any subcontractors that will perform work or labor or render services to the Contractor.

The Contractor understands and agrees that should it fail to specify a subcontractor for any portion of the work, that the Contractor is fully qualified to perform that portion of the work itself, and that it shall perform that portion itself. Penalties for failure to comply with this provision are provided in the Subletting and Subcontracting Fair Practices Act commencing with Section 4100 of the Public Contract Code.

The Contractor agrees that it shall not, without written consent of the City, make any substitution, assignment or sublet to or of the list of subcontractors which is made a part of this bid and then only after compliance with the provisions of the Subletting and Subcontracting Fair Practices Act.

Contractor's Commitment

Contractor is to furnish the appropriate manpower, tools and supervision to perform the work as described in the project's Scope of Work, Specifications, and/or Exhibits.

Contractor shall report in writing as part of their bid any conditions that may prove detrimental to work of their trade and shall list as "Exclusions" any part of the project's "Scope of Work" that is not included in their bid. Commencement of work of your trade section will serve as prima facie evidence that you have accepted all conditions related to this project.

Expectation of Contractor

Bid must include costs of all bonds and required insurance. Contractor must be able to meet City's insurance requirements. Substandard quality of work and/or lack of sufficient staff to effect timely completion of this project will be unacceptable. Change Orders will be reviewed extensively and are discouraged as the "Bidder's Instructions" so state. Any substandard or unacceptable work as deemed by a delegated Public Works Department representative will require the Contractor to correct such work immediately (within one working day).

Labor and Materials Bond

At or prior to the delivery of the signed Contract Agreement, Contractor shall deliver to City the Labor and Materials Bond. All forms shall be designated by City, and each shall be in an amount equal to one hundred percent (100%) of the contract price. All bonds shall be approved by the Director of Public Works before the successful bidder may proceed with the work. Failure or refusal to furnish bonds in the form satisfactory to the Director shall subject the bidder to penalties for delay in commencement of the work or revocation of the Award of Contract.

Contractor's License

The contractor shall possess a **Class A** license prior to submitting a bid. Contractor must provide the City with proof/copy of the license when submitting the bid or the bid will be disqualified.

Business License

All Contractors and subcontractors who transact or carry on business in the City shall acquire a Business License in conformance with the Burlingame Municipal Code.

Prevailing Wages

- No contractor or subcontractor may be awarded a contract for public work on a public works project (awarded on or after April 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5.
- This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
- The prime contractor must post job site notices prescribed by regulation. (See 8 Calif. Code Reg. §16451(d) for the notice that previously was required for projects monitored by the CMU (Compliance Monitoring Unit.) Additionally, all contractors and subcontractors must furnish electronic certified payroll records directly to the Labor Commissioner (aka Division of Labor Standards Enforcement).
