

**RESOLUTION NO. 094-2025**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BURLINGAME  
REJECTING ALL BIDS RECEIVED FOR THE ELECTRIC VEHICLE CHARGER  
INSTALLATION AT THE PUBLIC WORKS CORPORATION YARD**

**CITY PROJECT NO. 86900**

**WHEREAS**, on May 8, 2025, the City issued notice inviting bid proposals for the Electric Vehicle Charger Installation at the Public Works Corporation Yard, City Project No. 86900; and

**WHEREAS**, on June 12, 2025, all proposals were received and opened before the City Clerk and representatives of the Public Works Department; and

**WHEREAS**, the City received seven bids ranging from \$262,100 to \$381,098; and

**WHEREAS**, the first apparent low bidder voluntarily withdrew their bid due to the omission of a major equipment cost; the second apparent low bidder failed to meet the minimum qualification requirements; therefore, the third lowest bidder, Nema Construction, is determined to be the lowest responsive and responsible bidder for the project, with a bid amount of \$285,900; and

**WHEREAS**, Nema Construction subsequently informed City staff that the proposed electric vehicle charging stations, as described in the project plans and specifications, have been discontinued by the manufacturer; and

**WHEREAS**, alternative electric chargers and associated equipment of similar size or slightly larger power output on PG&E's pre-approved list for their EV Fleet Program would increase the project's cost by \$65,000 to \$93,000, which would exceed the 15% construction contingency budget; and

**WHEREAS**, staff recommends that the City Council reject all bids received for the project and authorize staff to revise the bid documents and to re-advertise the project.

**NOW, THEREFORE, be it RESOLVED, and it is hereby ORDERED**, that all bids for the above-named project are rejected; all bonds and security received in connection with the bids received shall be returned to the bidders; and City staff is authorized to update the project specifications to reflect currently available, PG&E-approved EV charging equipment; and re-advertise the project in accordance therewith.
